

Invitation to the

BaleIT Vintage Series Championship 2023

Period: 01.02.2023 - 31.01.2024

The **BaleIT Vintage Series Championship** is the cumulative result of all tasks in all categories of the Vintage Series.

The Vintage Series is flown in 4 categories

Category	Description	Planes
Baby	Planes build before WWII	GrunauBaby, SG38
Blanik	The Club class of the 1970's	Blanik, Ka6CR, K8, SGS1-26
Cirrus	The Standard class of the 1970's, first variant of the plane build before 1970	ASW15, Libelle, PilatusB4, StdCirrus
LS3	The FAI 15 m class of the 1970's	ASW20, LS3a

There are 11 tasks to fly, one each month, only one in December and January due to Christmas. Each task is defined by the weather and the task type. In order not to give an advantage to the participating organizer of the event, the tasks are created at random.

The task can be flown on every landscape and every airport, offline or online. The igc file of the flight needs to be uploaded to the Vintage Series home page.

Finally the best flight of each competitor in each category gets points like in a Grand Prix system. The seven best points in each category are added to the final result of the Vintage Series.

See all rules * of the Vintage Series on <http://www.baleit.no/vs.nsf>

The result of the **BaleIT Vintage Series Championship** will be the addition of the top three category results of each task, totaling the best seven out of 11 results.

The **BaleIT Vintage Series Champion 2023** will win a prize money ** depending on the number of telling competitors. Telling competitors are all with a minimum of seven results in the Championship.
